

TEST 3**SECTION 1**

JOAN:	Right... let's try and get it sorted out today so we don't have it hanging over us. OK?	
PETER:	Good idea. I'll take notes.	
JOAN:	First thing ... numbers... have we got anything definite?	
PETER:	Well... I've been working it out and I think 40 to 43.	
JOAN:	<u>Shall we put 45 to be on the safe side?</u>	<i>Example</i>
PETER:	Yep, fine.	
JOAN:	Dates ... well. That's straightforward.	
PETER:	The last working day before Christmas ... which is...	
JOAN:	... which is December the 21st.	
PETER:	... which is going to be pretty difficult to book at Christmas so we'd better think of two or three places just to be on the safe side.	
JOAN:	Well, last year's was hopeless.	
PETER:	The Red Lion, wasn't it?	
JOAN:	Yep. We ought to go for something more expensive, cos you ...	
PETER:	... you gets what you pay for.	
JOAN:	That new Indian restaurant in Wetherfield is supposed to be excellent... <u>the Rajdoot.</u>	<i>Q1</i>
PETER:	How do you spell that?	
JOAN:	R-A-J-D-O-O-T.	
PETER:	But it's bound to be packed.	
JOAN:	<u>Well, let's put that down as the first choice</u> and have some back-ups. <u>What about the Park View Hotel as a second choice?</u>	<i>Q2</i>
PETER:	<u>Yes, that's always reliable.</u> Park View Hotel. ...	
JOAN:	<u>And the London Arms in case.</u>	<i>Q3</i>
PETER:	London Arms. ...	
JOAN:	I'll call them now if you want.	
PETER:	No. I'll do it, Joan. You're really busy. Have you got the numbers?	
JOAN:	Not for the Rajdoot, but... right... Park View Hotel: 777192 and ... <u>London Arms: 208657.</u>	<i>Q4</i>
PETER:	Great. Before I ring, we'd better just make sure they're within the price range.	
JOAN:	Up to £15 a head?	
PETER:	I think you'll find some people won't be able to go that high.	
JOAN:	Well, you can't get anything decent under £10.	
PETER:	OK. We'll say £12?	
JOAN:	OK.	
PETER:	And we'd better make sure there's good vegetarian food.	
JOAN:	<u>And a non-smoking section!</u> You know what the boss is like.	<i>Q5</i>
PETER:	Don't remind me. I'll let you know as soon as I get anything.	

PETER: Good news. I found Rajdoot's number straight away and they can fit us in. Their Christmas menu sounds great.

JOAN: What is it?

PETER: French onion soup or fruit juice.

JOAN: Uh-huh.

PETER: Roast dinner or lentil curry... sounds ordinary but my friend said it was really tasty.

JOAN: Umm ... lentil curry ... that's unusual.

PETER: Then for dessert there's traditional plum pudding or apple pie, plus coffee.

JOAN: That sounds really good for £12. Did you book it?

PETER: Well, I said I'd check with the staff first. But they did say they'd hold the booking until next Wednesday anyway. Oh, and if we go ahead, they'd like a £50 deposit.

JOAN: 50 is normal... that's fine.

PETER: And they want a letter.

JOAN: Right... to confirm.

PETER: And they say with such large numbers we have to choose the menu in advance.

JOAN: That won't be a problem. I'll put up a notice with details of the restaurant and the menu. When did you say they wanted confirmation by?

PETER: It was ... let's see ... the 4th of November.

JOAN: Where do you think I should put up the notice? Where everyone's guaranteed to see it.

PETER: On the cafe noticeboard I should think.

JOAN: Hardly anyone looks at that.

PETER: Well, the Newsletter is probably your best bet.

JOAN: Good idea. I'll go and do that now.

SECTION 2

TUTOR: . . . So, I'll hand over now to Julie Brooks.

JULIE
BROOKS:

Thank you. Welcome to the Sports Centre. It's good to see that there are so many people wanting to find out about our sports facilities. First of all, membership. All students at the college are entitled to become members of the Sports Centre, for an annual fee of £9.50. To register with us and get your membership card, you need to come to reception, between 2 and 6 pm, Monday to Thursday. I'm afraid we can't register new members on Friday, so it's Monday to Thursday, 2 to 6, at reception. Now, there are three things that you must remember to bring with you when you come to register; they are: your Union card, a recent passport-sized photograph of yourself, and the fee. It doesn't matter whether you bring cash or a cheque. We can't issue your card unless you bring all three; so, don't forget: your Union card, passport photo and fee. Then once you have got your sports card, you will need to bring it with you whenever you come to book or use any Sports Centre facilities.

Q11/Q12
Q13

014/015

Booking over the phone is not allowed, so you have to come here in person, with your card, when you want to book. Our opening hours seem to get longer every year. We are now open from 9am to 10pm on weekdays and from 10am to 6pm on Saturdays. For those of you who are up and about early in the morning, we are introducing a 50 per cent 'morning discount' this year. This is because the facilities tended to be under-used in the mornings last year. It means that all the sessions will be half-price between 9am and 12 noon on weekdays.

Q16

So, what exactly are the facilities? What sports can you play here? Well, this room we are in at the moment is called the Main Hall, and it's used mainly for team sports such as football, volleyball and basketball, but also for badminton and aerobics. On the other side of the reception area there is the dance studio; this provides a smaller, more intimate space, which we use for ballet, modern dance and martial arts - not at the same time, of course. Then in a separate building, which you may have noticed on your way here . . . it's on the other side of the car park . . . there are the squash courts (six of them), and at the far end of the building a fitness room. This is our newest facility, only completed in the Spring, but it is already proving to be one of the most popular. As well as all these facilities available here on the campus, we also have an arrangement with the local tennis club, which is only two miles away, entitling our students to use their courts on weekday mornings in the Summer. So, I think that there should be something here for everybody, and I hope to see all of you at the Centre, making use of the facilities. If, in the course of the year, you have any suggestions as to how the service we provide might be improved or its appeal widened, I'll be interested to hear from you.

Q17/Q18

Q19 Q20

SECTION 3

JOHN BROWN: Good morning, Mrs Collins. I just wondered if you could help me with this entry form for the Young Electronic Engineer competition.

MARY COLLINS: Hello, John. Oh you've made the jigsaw for blind children, with the bleeper.

JOHN BROWN: When they put a piece in correctly, that's right.

MARY COLLINS: OK, let's have a look at the form.

JOHN BROWN: Right, thanks. I've never filled in one of these before, so ...

MARY COLLINS: Well, let's just do it in pencil first. So, name of designers ...

JOHN BROWN: Well, Ann helped me with some of the electronics work.

MARY COLLINS: Then you must put her name in as well. Right... Ann Ray.

JOHN BROWN: Sorry. It's ANNE and her surname is spelt R-E-A.

Q21

MARY COLLINS: Good start! OK... REA. And age is easy. You're both 16. What have you called the design? Keep it short.

Q22

JOHN BROWN: What about jigsaw puzzle design for visually handicapped?

MARY COLLINS: Too long. Just say blind puzzle, that'll do.

Q23

JOHN BROWN:	OK.	
MARY COLLINS:	Right now, size of equipment?	
JOHN BROWN:	I've got it noted down here ... um, yes, length, sorry, <u>width is 20 cm.</u>	Q24
MARY COLLINS:	<u>OK.</u>	
JOHN BROWN:	<u>Length is 50 cm, and then the depth is ... well, it's very little.</u>	
MARY COLLINS:	<u>What would you say? I think you can be approximate.</u>	
JOHN BROWN:	<u>I'd say 2.5 cm.</u>	
MARY COLLINS:	And the electricity supply? Is it mains operated?	
JOHN BROWN:	No it isn't, it's actually battery.	
MARY COLLINS:	OK, write battery.	
JOHN BROWN:	Fine, OK. It's the next bit that I'm really not sure what to put.	
MARY COLLINS:	Well, special features means, what is really new about this, you know, suitable for the group you made it for.	
JOHN BROWN:	Well, <u>it's safe for children.</u>	Q25
MARY COLLINS:	That's fine. Put that in.	
JOHN BROWN:	OK, and of course we think <u>it's educational.</u>	Q26
MARY COLLINS:	There you are, you've done it. Anything else?	
JOHN BROWN:	Well, I think <u>the price is good.</u>	Q27
MARY COLLINS:	That's probably the most important factor.	
JOHN BROWN:	OK ... cheap price.	
MARY COLLINS:	Which brings us on to the next bit. What's the cost?	
JOHN BROWN:	Well, the pieces we made out of old wood ... they cost, ooh, \$5.	
MARY COLLINS:	<u>And the electrics?</u>	
JOHN BROWN:	<u>They were more expensive ... say, \$9.50.</u> Brilliant. Now what do they mean by other comments?	Q28
MARY COLLINS:	It's just a chance for you to say anything about the equipment, and problems you envisage.	
JOHN BROWN:	Well, we would really like help with making plastic instead of wooden pieces.	
MARY COLLINS:	Well, put something like, <u>need help to make plastic pieces.</u>	Q29
JOHN BROWN:	OK. And the other thing is, we'd like to develop a range of sizes.	
MARY COLLINS:	That's fine, then, just put that. And the last bit is, when will you send the equipment?	
JOHN BROWN:	Well, we've got a lot of work on at the moment and we want to get it as good as we can.	
MARY COLLINS:	Well, say 25 June?	
JOHN BROWN:	Can't we make it later?	
MARY COLLINS:	Well, <u>the last date is 1 July. Why not say that?</u>	Q30
JOHN BROWN:	OK, that's what I'll put.	
MARY COLLINS:	So that's the lot!	
JOHN BROWN:	That's brilliant. Thanks very much, Mrs Collins. I'll send it off straightaway.	
MARY COLLINS:	Glad to be of help. Very best of luck to you both.	
JOHN BROWN:	Thanks, bye.	
MARY COLLINS:	Bye.	

SECTION 4

- PAULA: Today I'd like to introduce Ted Hunter, who used to rear sheep and poultry but who is here to tell us about a rather unusual type of livestock that he's been concentrating on in the last few years. Ted Hunter is a member of the Domesticated Ostrich Farming Association, and is here to tell us about the possibilities of breeding and rearing these birds here in this country.
- TED: Thank you, Paula. When you look at international restaurant menus and supermarkets they all tend to feature the same range of meats - beef, lamb, chicken, pork, that sort of thing. But people are always interested in something different and we're now finding that farming can bring new types of meat to our tables. The kangaroo is one animal that's now being farmed for its meat and eaten outside Australia, where it comes from. It looks and tastes rather like rabbit, Q31
 though it's slightly darker in colour, but it is rather tough, so that's a problem for some people. Q32 Crocodiles are also being farmed for their meat. This is rather like chicken, pale and tender, and it's getting quite fashionable. Some people also find it's rather fatty, but I think it makes a really tasty sandwich. Now a third type of meat becoming increasingly available, and the one that I think is by far the nicest of the three, is ostrich, which most people say has a similar taste and texture to beef. Q33 However, it's much better for you than beef, as we'll see later. Most people think of ostriches as wild animals, but in fact ostriches have been farmed in South Africa since around 1860. At first they were produced for their feathers. Q34 In Africa they were used for tribal ceremonial dress and they were also exported to Europe and America where they were made into ladies' fans and used for decorating hats. Q35 Later, feather fans and big, decorated hats went out of fashion but ostriches were still bred, this time for their hide. Q36 This can be treated to produce about half a square metre of leather - very delicate, fine stuff of very good quality. At the same time, some of the meat was used for biltong - the air-dried strips of meat popular in South Africa as a sort of fast food. However, recently there's been more and more interest in the development of ostrich farming in other parts of the world, and more people are recognising its value as a food source. Ostrich meat is slightly higher in protein than beef- and much lower in fats and cholesterol. It tastes good too. A series of European taste tests found that 82% of people prefer ostrich to beef. And one ostrich produces a lot of meat - from around 30 to 50 kg, mostly from the hindquarters of the bird. Farmed ostriches don't need African climates, and in fact ostrich farming is now becoming well established in other parts of the world. However, setting up an ostrich farm isn't something to embark on lightly. Mature breeding birds are very expensive - even a fertilised ostrich egg isn't cheap so you need quite a bit of capital to begin with. Q37 Then the farmer needs special equipment such as incubators for the eggs. The young chicks are very dependent on human minders, and need a lot of attention from the people looking after them. Q38 In addition, ostriches can't be intensively farmed - they need space and exercise. Q39

But in spite of this they make good farming sense. A cow produces only one calf a year whereas a female ostrich can lay an egg every other day. And because the farmers can use incubators and hatched chicks are nourished well and protected from danger, the failure rate on farms is very low indeed and almost all the fertilised eggs will hatch out into chicks which will in turn reach maturity. This is very different from the situation in the wild, where the vast majority of chicks will die or be killed before they grow up into mature ostriches. So it's possible, once the initial outlay has been made, for the farmer to be looking at very good profit margins indeed. Ostrich farming is still in its early days outside Africa but we hope that ostrich meat will be freely available soon and before long will be as cheap as beef.
